FOREST FIRE PREVENTION IS EVERYBODY'S BUSINESS

New Hampshire faces a continuing challenge in its forest fire problem—97 percent of all our forest fires being man-caused and preventable—a serious indictment of interest in our own welfare and that of our neighbor. Both the State and the towns are striving diligently to effectively meet the challenge through education of the public to the threat fire presents to our woodlands; by maintaining a well trained corps of wardens and deputy wardens in every community and by providing ample opportunity for all who wish to dispose of unwanted waste materials. Careless and perverseness, however, continue to be the big hurdles.

Thoughtlessly discarded lighted cigars, cigarettes and matches from moving vehicles, by hikers, hunters and fishermen; careless burning of debris during hazardous periods in dangerous locations; illegal burning; improperly extinguished debris, camp and cook fires—all result in serious loss of property, disruption of industry and farm work and unnecessary expenditure of town and state funds.

To meet the challenge successfully, the state, your community and your local forest fire warden need YOUR thoughtful and cooperative effort—the rules are simple.

1. Don't burn at home—use your town dump and avoid all fire problems.

2. If you do burn, be sure to secure a written permit from your local forest fire warden when the ground is not covered with snow. Permits are required for open debris fires, home incinerators, outdoor fireplaces and camp fires. Your warden is instructed to permit burning if weather conditions, site and type of burning are safe.

3. Be sure that all lighted material—cigars, cigarettes and matches—are completely out before discarding them. Use ash trays in automobiles.

4. Make certain that your debris, camp and cook fires are completely out before leaving them.

5. Insist that others be careful and comply with burning requirements.

6. Call the warden promptly when fire is detected and aid him to extinguish it.

REMEMBER — the fire you prevent might be the one which could burn YOUR property.

REMEMBER — Forest Fire Prevention is Everybody's Business and our Most Important Undertaking.

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Dalton:

It is with pleasure that I submit to you my annual report relative to your school.

School opened in September with a total enrollment of 76 pupils as compared with a total enrollment of 87 pupils a year ago. There are 27 enrolled in grades one and two, 22 in grades three and four, and 27 in grades five and six.

There have been no changes in the teaching staff since my last report. Mrs. Claribel Blakslee is being employed again this year to work with pupils in the primary grades who are having difficulty.

Considerable work has been accomplished on the school grounds during this past year, and as a result play areas have been established for the various groups. The teachers have purchased a merri-go-round for the playground and this will be installed in the spring after the frost leaves the ground. It was hoped that the other playground equipment could have been moved last summer but extensive work on the grounds made it necessary to delay this project.

A sliding curtain for the stage area was also purchased this past year so that programs could be presented by the pupils at various times during the year.

Your school building has become an active center for youth activities. Since the installation of the backboards for basketball, organized games have been regularly scheduled. Many youngsters have been able to benefit greatly by the facilities that are now available. The building is also used by adult groups for various activities throughout the year.

The school lunch program continues to operate very efficiently with most of the children participating. Federal foods are still available and the milk program is assisted with Federal funds.

The budget for the coming year is somewhat higher than that of the present year. The tuition rate for high school pupils has increased from \$360.00 per pupil to \$375.00 per pupil, and the elementary tuition from \$235.00 to \$240.00 per pupil. It should be noted at this time that these rates are still well below stage averages. Teachers salaries, which are low and have been low for a number of years, must be increased in order to hold and attract certified and qualified teachers.

Your school is supplied with modern text books and adequate teaching aids and supplies.

Included in this report will be found the report of the school nurse who carries on a very effective health program in the school. You will also find statistical report, financial report, budget for next year, teacher list and tuition list for the present year.

In closing, I wish to express my appreciation to the citizens of Dalton, the school board and other school district personnel for their continued support.

Respectfully submitted,
LESLIE S. CUMMINGS
